

“Applying Fame[®] SC first was the difference maker in my fungicide program. It controlled my toughest pythium root dysfunction issues. Fame[®] SC will always be the foundation in my fungicide program.”

Jeff Lee
Superintendent, Valley Hill CC
Huntsville, AL

WHAT IS FAME[®] SC FUNGICIDE?

Fame[®] SC fungicide is powered by fluoxastrobin the most advanced Strobilurin (FRAC 11) on the market. This fungicide is unique amongst the strobilurin family for its 15-minute rainfastness, dollar spot suppression, and plant health benefits. Fame[®] SC fungicide delivers excellent results on brown patch, fairy ring, summer patch and pythium root dysfunction. The addition of a fluorine atom on its chemical structure means quicker uptake and even distribution within the plant. Add all of these together and you get a product that delivers superior disease control and healthier turf.

Fluoxastrobin
FRAC 11

FAME[®] SC FUNGICIDE

- Rapid mobility and rainfast within 15 minutes
- Increased root mass and root length providing additional plant health benefits
- Rapid xylem and translaminar movement
- FRAC 11 Fungicide

KEY DISEASES:

- Brown Patch
- Fairy Ring
- Pythium Root Dysfunction
- Summer Patch
- Dollar Spot

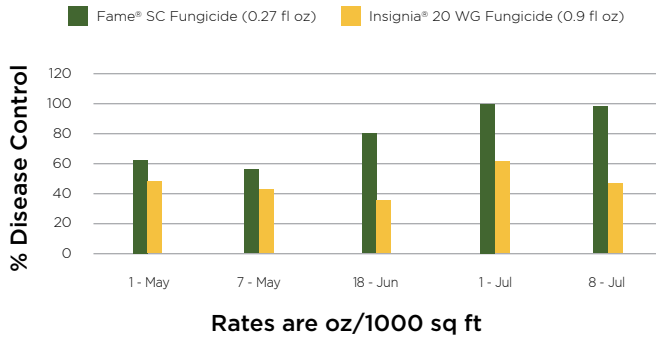

LABELED USE SITES:

- Golf Courses
- Sod Farms
- Commercial Lawns
- Athletic Fields
- Residential Lawns

THE POWER OF FLUOXASTROBIN

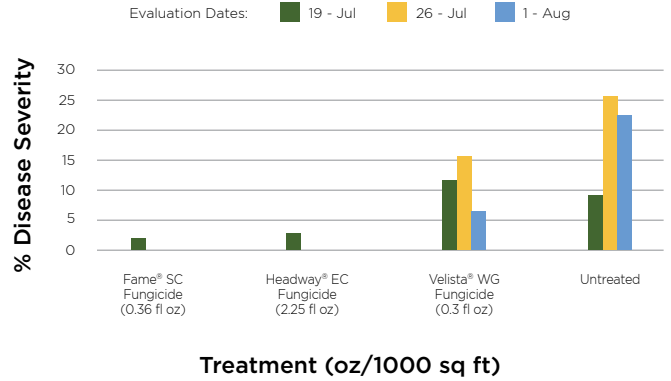

Fame® SC fungicide works by interfering with respiration in plant-pathogenic fungi and is a potent inhibitor of spore germination and mycelial growth. The active ingredient, fluoxastrobin, moves rapidly into roots and green tissue via translaminar and xylem movement. The molecular design of fluoxastrobin, with its unique fluorine structure, provides increased leaf systemicity resulting in more uniform leaf distribution.

Fame® SC Fungicide Pythium Root Dysfunction Control on Bentgrass Green

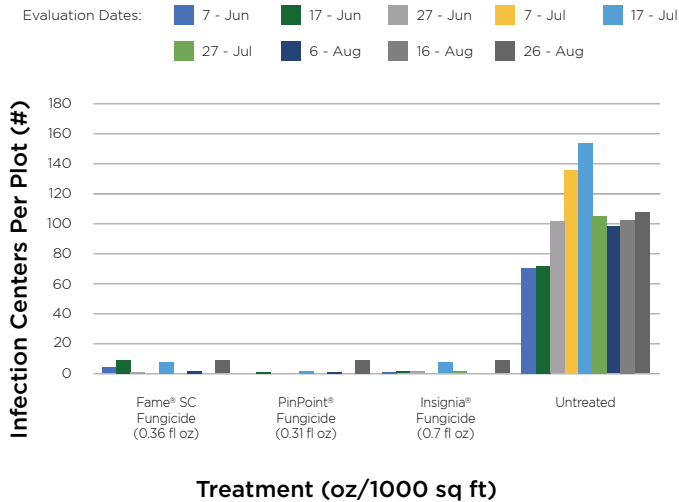

NC State University 2008 - 2009
 Fame® SC Fungicide: 4 applications; 2 week intervals
 Insignia® 20 WG Fungicide: 3 applications; 3 week intervals

Fame® SC Fungicide Curative Brown Patch Control

T. Hicks, Ohio State University
 Initial application July 19, 2017
 Creeping bentgrass fairway
 21 day interval for all treatments except Velista® WG Fungicide (14 day interval)

Fame® SC Fungicide Dollar Spot Control

Bruce Clarke, PhD, Rutgers University
 Initial Application May 18, 2021
 Colonial Bentgrass Greens
 Treatments applied on 14-day intervals
 1 (2*) gall/1000 sq ft
 7 applications
